Dr. LeRoy's Philosophy

John L. LeRoy, M.D., F.A.C.S. is devoted to helping his patients enhance their appearance by providing exceptional aesthetic care. He is committed to patient education - working with each and every patient to ensure that they are fully informed and comfortable with their desired treatment plan. He believes that by working together with patients to create a shared vision, cosmetic procedures have the potential to make a significant contribution to each patient's quality of life.

Dr. LeRoy lives by the mantra "Beauty, Excellence & Perfection" because of his commitment to refining each and every surgical technique and the reward he feels in helping patients to become their most beautiful and confident selves. His consistently exceptional results and commitment to patient care has made him one of the leading plastic surgeons in the Atlanta area.

More information about Dr. LeRoy and the procedures he offers can be found at www.JohnLeRoyMD.com.

We look forward to serving you!

Procedures of the Face

There is no more distinguishable part of your body than your face. That is why many people turn to cosmetic surgical and non surgical procedures to enhance their overall facial aesthetics. Whether you wish to correct or soften your fine lines and wrinkles or wish for more symmetrical, balanced features, Dr. LeRoy's approach is subtlety and naturalness. Using the least invasive and most effective techniques, Dr. LeRoy offers surgical and non surgical options to enhance the face while maintaining a look that is uniquely you. Facial procedures and treatments offered:

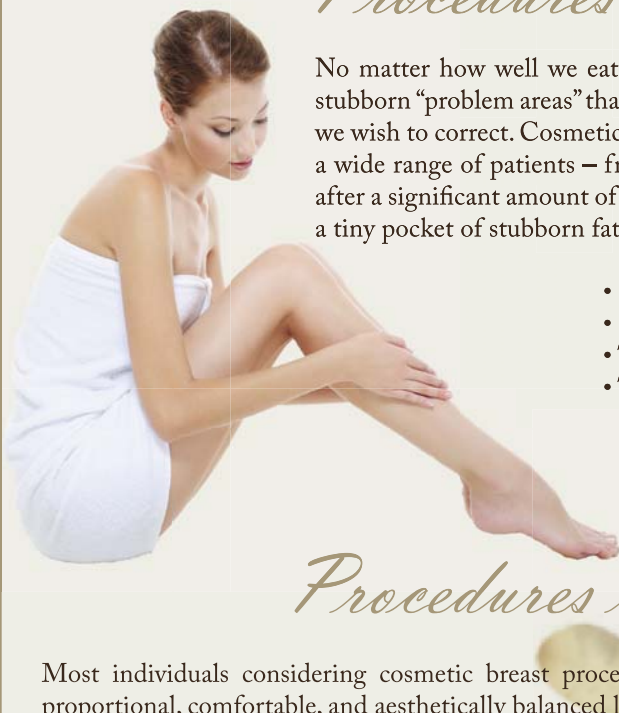

- Facelift (full, upper, mid, lower)
- Band Aid Facelift (mini, in-office)
- Blepharoplasty/Eyelid Surgery
- Band Aid Blepharoplasty (mini, in-office)
- Neck Lift
- Liposuction of the Double Chin
- Botox® & Dysport®
- Facial Fillers (Restylane® & Juvederm®)
- Laser Resurfacing
- Latisse® for eyelashes

Procedures of the Body

No matter how well we eat, or how often we exercise, we all encounter stubborn "problem areas" that resist the efforts of diet and exercise and that we wish to correct. Cosmetic procedures of the body can be the answer for a wide range of patients – from those seeking complete body contouring after a significant amount of weight loss to those who only wish to remove a tiny pocket of stubborn fat from their tummy. Body procedures offered:

- Liposuction
- Band Aid Lipo (mini, in-office)
- Tummy Tuck
- Thigh Lift

Procedures of the Breasts

Most individuals considering cosmetic breast procedures are concerned with creating a more proportional, comfortable, and aesthetically balanced look. Whether you wish for fuller breasts and a more feminine proportion, a reduction for a more comfortable breast size, or a breast lift to reverse the effects of pregnancy; Dr. LeRoy's ultimate goal is patient satisfaction. Breast surgery is about having realistic expectations and then crafting a treatment plan to meet and oftentimes exceed those expectations – resulting in a more confident, comfortable you. Breast procedures offered:

- Breast Augmentation (saline or silicone)
- Breast Lift
- Breast Reduction
- Male Breast Reduction

Dr. LeRoy's Band Aid Procedures

Years of experience and commitment to mastering the latest surgical techniques, has allowed Dr. LeRoy to refine and perfect "light" or mini versions of some of his most popular cosmetic procedures. His originally developed "Band Aid" procedures are performed in the office, using gentle numbing – significantly cutting costs to patients, and with less invasiveness and shorter downtime than traditional procedures. Band Aid procedures offered:

Band Aid Facelift

Dr. LeRoy developed the Band Aid Facelift in 1997 to correct fine lines and wrinkles the easy way. Performed in-office, with gentle numbing, the Band Aid Facelift will keep you looking like you – just 10 years younger!

Band Aid Lipo

The ideal patient for Band Aid Lipo is a person who is of average weight, fit, and in good physical health, but is unhappy with small areas of excess fat that are resisting the efforts of diet and exercise. Because gentle numbing is used in lieu of general anesthesia, only very small amounts are fat are removed – an ideal option for patients who wish for minor contouring without having to undergo extensive surgery.

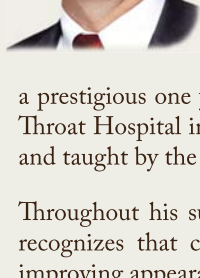

Band Aid Blepharoplasty

Using the same principles behind the Band Aid Facelift, the Band Aid Blepharoplasty (eyelid surgery) focuses on the area around the eyes. Also performed in-office, using gentle numbing, the Band Aid Blepharoplasty can refresh the look around your eyes with subtle, natural looking results.

Band Aid Brow Lift

The Band Aid Brow Lift procedure is a less invasive alternative that works to lift the sagging or dropping excess skin around and above your eyes. The result is a more rested look and more youthful brow.

John L. LeRoy, JR., M.D., F. A. C. S., P. C.

John L. LeRoy, Jr. is a cosmetic and plastic surgeon, board certified by the American Board of Plastic Surgery and the American College of Surgeons. Dr. LeRoy is a Diplomate of the American Board of Plastic Surgery, a Fellow of the American College of Surgeons and is specialty trained in cosmetic surgery. He is affiliated with St. Joseph's Hospital in Atlanta.

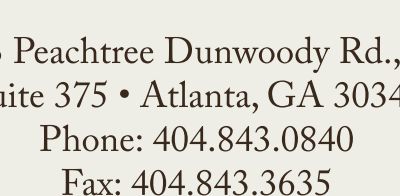

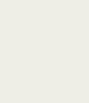

Dr. LeRoy received his undergraduate education at Clemson University and graduated from the Medical College of Georgia where he completed his training in general surgery and plastic surgery. A formative step in his training was a prestigious one year fellowship which he was awarded to the renowned Manhattan Eye, Ear and Throat Hospital in New York. There, Dr. LeRoy focused intensively on cosmetic surgery developed and taught by the world's leading plastic surgeons.

Throughout his successful career, Dr. LeRoy has developed an approach to plastic surgery which recognizes that cosmetic surgery can make a significant contribution to the quality of life by improving appearance and enhancing self image. Patients want to look and feel better. This must be understood thoroughly by the surgeon, and through friendly discussion, this can be achieved before any work is undertaken. Dr. LeRoy believes a happy patient before surgery leads to a happy patient after surgery.

Among his many professional affiliations, Dr. LeRoy lists membership in the American Medical Association, the American Society of Plastic Surgeons, the Georgia Society of Plastic Surgeons, and the American Society for Aesthetic Plastic Surgery. Notable among his philanthropic activities was a two-week tour of duty as a volunteer surgeon in war-torn Croatia where he and other physicians treated civilians wounded in the Bosnian conflict.

Dr. LeRoy regularly contributes to professional journals including *Plastic and Reconstructive Surgery*, *Aesthetic Plastic Surgery*, and *American Surgeon*. As well, he speaks frequently to professional and civic groups about plastic surgery and related subjects.
